Parents --

I'm sure you are probably overwhelmed with all the papers and notes. I'll keep this short and hopefully well laid out for your reference.

First, thank you so very much for your patience. Organizing a grade 1 - 12 roll out of curriculum, technology and schedules has proved to be complex. That being said we are excited for all that we have organized. PLEASE know you can always call with questions or clarification on anything. This is new to all of us and we appreciate your input.

Schedules: I've included a sample schedule for students. This is just an idea -- something different may work better for your family. That being said, routine is important for all grade levels.

I've also included our online learning sessions. Not all students will be able to participate in this but we will ensure that those who can't have the tools they need.

Our staff are also working to create youtube read aloud books and lessons. **Look up Lomond Community School in the coming weeks for great resources.**

Tech Passwords: For those students with online options your teacher has included needed passwords for some of our programs. Please put those in a safe place as we will refer to them often over the next months.

This week we included paper copies for most students. **If your student would prefer to use google docs please put a note in their pack or email your teacher.**

Websites: We've included a list of Websites for Learning. These websites can be used to supplement lessons. We will offer a new list of options every couple of weeks.

Health of Students: If your child is sick or has any cold like symptoms he/ she will not be required to complete the work. In fact, we are trying to eliminate germ spreading so please keep the assignments away from sick children.

Staff Accessibility: Our teachers are available for you during the school day. **If you have any questions at all please don't hesitate to contact to the school (403-792-3620) and we will get a teacher or staff member to call you back asap.** There will always be someone at the school (8:30 - 3:30). Schools are not closed and we want to help you in any way we can -- don't hesitate to call.

Our staff will also be calling parents to check in and see how things are going.

Library: If your child has books (that they aren't using) **please bring these back** as soon as possible.
